

Dolomite Maxi+ Rollator

For the customer who requires a walker with more capacity, consider the Maxi. It is a wider frame, 20.5" and has a greater weight capacity, 440 lbs. while remaining a 19 lb. walker. The arms adjust in increments for 6 inches of height range and have ergonomic grips. Maxi has a safety latch on the seat to guard against accidental folding when using the grab handle on the seat. Maxi comes in Metallic Blue color and 2 seat heights.

Maxi+ comes with the patented DABS braking system, with adjustable tension for varied grip strength. Brake handles have a wide flange and large loops for comfortable hand positioning. The brake mechanism is located within the fork for protection. When parked and using the seat, pushdown the handles to set the parking brakes.

- Forward facing handles which promote better posture
- The DABS patented brake system can be easily locked in parking position
- Folding frames for ease in storage and transporting
- Adjustable back strap
- Welded steel frame
- Basket with carry handle
- Curb climber – **red wire piece attached near the wheel.**
- 8" x 1.35" thick indoor/outdoor tires
