

## **Handicare Ceiling Hoyer Lift A-625 [625# max capacity]**

Never installed – selling as is

\$500 – includes all manuals and installation information.

### **Easy and Accurate Patient Transfers**

Transferring a patient can be challenging, especially when it's difficult to position the lift perfectly. This not only creates frustration for you but also causes discomfort for your patient. The Handicare A-Series Ceiling Lift solves this problem with its unique tilting design, allowing you to easily and accurately position the lift in seconds. This reduces the time and effort you need for each transfer, making the process smoother, safer, and more comfortable for both you and your patient.

- **Strong Lifting Power:** Handles a wide range of patients safely and reliably.
- **Compact Design:** Fits in tight spaces, making it easy to use in various environments.

- **Tilting Feature:** Helps you position the lift accurately, reducing effort and improving comfort.
- **Antimicrobial Strap:** Reduces the risk of infection by preventing microbial growth.
- **Real-Time Monitoring:** Provides instant updates on lift performance for better safety.
- **Easy Maintenance:** Allows quick servicing directly on the track, saving you time.
- **Flexible Charging Options:** Choose between Constant Charge or Return to Charge for convenience.
- **Emergency Stop:** Quickly halts the lift if there's an immediate issue to keep everyone safe.
- **Emergency Lowering:** Gently lower the patient to the ground if the lift has a problem.
- **Low Battery Alert:** Warns you when the battery is low so you can recharge it before it runs out.
