

# CAR RV & BOAT Battery Recycling

Good News Project is now accepting lead acid car, boat, and RV batteries for recycling!

Here's what you need to know:

- **COST:** \$5.00 per battery (all sizes)
- **WE ACCEPT:** All brands and sizes of lead acid car, RV, and boat batteries
- **NOT ACCEPTED:**
  - Leaking batteries, or batteries that otherwise present an immediate safety hazard
  - Electric Vehicle(EV) batteries
  - Lithium or other car battery material types

(\*\*Note: Applies only to car batteries - we are still able to accept smaller rechargeable batteries [under 300 Wh] of any battery chemistry type at \$2.29/lb - lithium Ion, Nickel Cadmium, etc.)
